

IT DIRECTOR GUIDE

CHALLENGES WITH ASSET MANAGEMENT

PART 2 | EFFICIENCIES AND ROI

From challenges to measurable value.

How smart asset management delivers efficiencies, reduces costs and drives real business impact.

IMPROVE EFFICIENCY

REDUCE COSTS & WASTE

DRIVE ROI & BUSINESS VALUE

STRENGTHEN CONTROL & COMPLIANCE

REAL-TIME VISIBILITY

Know where assets are, who has them and their status.

AUTOMATE PROCESSES

Streamline issue, return and approvals. Eliminate manual work.

EMPOWER USERS

Self-service access improves productivity and experience.

SECURE EVERY ASSET

Enforce access control and maintain complete audit trails.

MEASURE WHAT MATTERS

Actionable insights to optimise utilisation and spend.

SMART ASSET MANAGEMENT. SMARTER OPERATIONS. STRONGER RESULTS.

MEASURABLE RESULTS

Real outcomes.
Measurable impact.

Smarter asset management
with smart lockers.

OUTCOME	TYPICAL RESULT
 Manual administration	↓ 70–95%
 Asset issue and return time	↓ 80–95%
 IT & facilities workload	↓ 30–70%
 Asset loss	↓ 70–95%
 Equipment search time	↓ 80–95%
 Asset utilisation	↑ 20–50%
 Duplicate purchases	↓ 20–50%
 Collection time	<30 seconds
 Asset visibility	Near real-time (up to 100%)
 Audit readiness	100% transaction traceability

REDUCE COSTS
Lower admin time,
less loss, fewer
duplicate purchases.

SAVE TIME
Faster issue, return
and collection
in under 30 seconds.

IMPROVE PRODUCTIVITY
Less searching,
fewer interruptions,
more productive
teams.

INCREASE CONTROL AND COMPLIANCE
100% visibility, full
audit trail, complete
accountability.

SELF-SERVICE ACCESS 24/7
Secure, convenient
and always
available.

These outcomes are particularly valuable for organisations managing shared **laptops, tablets, scanners, radios, tools, medical devices, test equipment, PPE**, and other high-value assets across **offices, healthcare, logistics, manufacturing, education, and field service** environments.

TYPICAL BUSINESS OUTCOMES

Measurable results from enterprise asset smart locker deployments

LOWER COSTS

IMPROVE EFFICIENCY

INCREASE VISIBILITY

ENHANCE SECURITY

1

70–95%

reduction in manual asset administration.

6

<30 SECOND

average collection and return time.

2

80–95%

faster asset issue and return processes.

7

20–50%

improvement in asset utilisation.

3

30–70%

reduction in IT and facilities workload.

8

30–70%

reduction in labour required to manage shared assets.

4

70–95%

reduction in lost or misplaced equipment.

9

NEAR REAL-TIME

visibility of asset inventory and availability.

5

100%

traceability through automated audit logs.

10

IMPROVED OPERATIONAL RESILIENCE through secure, self-service access 24/7.

These figures represent commonly reported outcomes from enterprise smart locker deployments. Actual results depend on the scale of deployment, existing processes, and the level of integration with systems such as ITSM, MDM, HR, or facilities management platforms.

ASSET SMART LOCKER

EFFICIENCY BENEFITS

Measurable improvements across operations, productivity and asset management.

OPERATIONAL AREA	TYPICAL EFFICIENCY IMPROVEMENT
 Manual asset administration	↓ 70–95%
 Asset issue and return time	↓ 80–95%
 IT or facilities service desk workload	↓ 30–70%
 Time spent searching for assets	↓ 80–95%
 Asset availability	↑ Significant improvement
 Asset utilisation	↑ 20–50%
 Lost or misplaced assets	↓ 70–95%
 Duplicate equipment purchases	↓ 20–50%
 Audit preparation time	↓ 80–95%
 Compliance reporting	🎯 Near 100% automated transaction history
 Manual record keeping	↓ 70–95%
 Equipment collection time	🕒 Typically under 30 seconds
 Queueing for shared equipment	↓ 70–90%
 Chain of custody visibility	🛡️ 100% transaction tracking
 Equipment turnaround time	↓ 40–80%
 Staff interruptions	↓ 30–60%
 Asset accountability	🛡️ 100% user attribution
 Security incidents related to shared assets	↓ Significant reduction
 Inventory visibility	🎯 Near real-time (up to 100% visibility)
 Multi-site asset management effort	↓ 30–70%

SAVE TIME

Automate issue, return and tracking of assets.

REDUCE COSTS

Lower admin, labour, loss and duplicate purchases.

IMPROVE CONTROL

100% visibility, security and accountability.

EMPOWER TEAMS

24/7 self-service access anytime, anywhere.

MAXIMISE VALUE

Better utilisation and smarter asset decisions.

EXECUTIVE ROI SUMMARY

SMART LOCKERS.
SMARTER OPERATIONS.
BETTER RESULTS.

Measurable impact. Stronger operations. Faster return.

METRIC	TYPICAL IMPROVEMENT
 Labour Efficiency	 30–70%
 Asset Availability	 20–50%
 Asset Loss Reduction	 70–95%
 Manual Administration	 70–95%
 Audit Readiness	 Up to 100% transaction traceability
 Equipment Collection Time	 <30 seconds
 Operational Visibility	 Near real-time (up to 100%)
 Procurement Efficiency	 20–50% duplicate purchases
 Employee Productivity	 Reduced waiting and fewer work interruptions
 Investment Payback	 Typically 12–24 months*

WHY IT MATTERS

FINANCIAL SAVINGS

Reduce costs through lower labour, less loss, and smarter asset utilisation.

OPERATIONAL EFFICIENCY

Streamline workflows, improve visibility, and deliver faster service.

STRONGER GOVERNANCE

Complete audit trails and authenticated access drive compliance and control.

BETTER EMPLOYEE EXPERIENCE

Self-service access means less waiting, faster access, and higher productivity.

LONG-TERM VALUE

Scalable solution that grows with your business and delivers lasting ROI.

This combination of financial savings, operational efficiencies, and improved governance makes asset smart lockers **a compelling investment** for organisations managing shared devices, tools, and equipment at scale.

* Payback period varies based on deployment size, asset value, utilisation, and existing processes.

ASSET SMART LOCKER ROI METRICS

Measurable financial and operational returns from smart locker deployments.

ROI AREA	TYPICAL OUTCOME
 Manual administration costs	↓ 70–95%
 IT & Facilities labour costs	↓ 30–70%
 Asset loss and shrinkage	↓ 70–95%
 Equipment retrieval time	↓ 80–95%
 Asset issue and return time	↓ 80–95%
 Audit preparation time	↓ 80–95%
 Duplicate asset purchases	↓ 20–50%
 Asset utilisation	↑ 20–50%
 Device availability	↑ Significant improvement
 Operational downtime	↓ 20–60%
 Employee waiting time	↓ 70–95%
 Collection and return time	🕒 Typically under 30 seconds
 Compliance reporting effort	↓ 60–90%
 Inventory accuracy	👁️ Up to 100% visibility
 Return on investment (payback)	📅 Often 12–24 months*

LOWER COSTS

Reduce labour, loss, downtime and duplicate spending.

SAVE TIME

Faster issue, return and collections in under 30 seconds.

IMPROVE EFFICIENCY

Automate processes and increase asset utilisation.

STRENGTHEN CONTROL

100% visibility, audit trail and compliance across all assets.

EMPOWER USERS

Self-service access anytime, anywhere improves productivity.

Smart lockers deliver **measurable ROI** across financial, operational and strategic areas.

* Payback periods vary depending on deployment size, labour costs, asset values, and utilisation.

FINANCIAL ROI BENEFITS

Asset Smart Lockers Deliver Measurable Financial Impact

LOWER COSTS

IMPROVE EFFICIENCY

MAXIMISE VALUE

1

Reduced labour costs through automated issue and return workflows.

2

Lower asset replacement costs due to reduced loss and theft.

3

Fewer duplicate equipment purchases through better utilisation.

4

Reduced overtime associated with manual asset handling.

5

Lower compliance and audit costs through automated records.

6

Reduced helpdesk and service desk workload.

7

Better utilisation of existing equipment before purchasing new assets.

8

Reduced costs associated with misplaced or unavailable devices.

9

Lower storage and inventory management costs.

10

Scalable operations without proportional increases in staffing.

**SMART LOCKERS.
SMARTER INVESTMENT.**

Asset smart lockers reduce operational costs, improve efficiency, and strengthen financial performance across your organisation.

LOWER COSTS

Reduce spend across labour, assets, compliance and operations.

IMPROVE EFFICIENCY

Automate workflows and maximise asset utilisation.

REDUCE RISK

Minimise loss, theft and compliance exposure.

MAXIMISE VALUE

Get more from your existing assets and investments.

STRONGER ROI

Lower total cost of ownership and faster payback.

OPERATIONAL ROI BENEFITS

Smart Locker Solutions Deliver Measurable Operational Impact

ALWAYS AVAILABLE

Access assets anytime, anywhere.

SAVE TIME EVERY DAY

Streamline processes and reduce delays.

SEE EVERYTHING IN REAL TIME

Complete visibility and control of your assets.

SECURE & ACCOUNTABLE

Protect assets with verified access.

1

24/7 self-service access to assets.

2

Faster equipment issue, return and redeployment.

3

Real-time visibility of asset location and status.

4

Complete chain of custody for every transaction.

5

Increased availability of critical shared equipment.

6

Improved accountability with authenticated user access.

7

Faster onboarding and offboarding processes.

8

Better service levels for employees and contractors.

9

Reduced downtime caused by missing or unavailable assets.

10

Centralised management across multiple sites.

OPERATIONAL EXCELLENCE.
MEASURABLE IMPACT.

LESS TIME on manual tasks

MORE EFFICIENCY in every process

GREATER VISIBILITY and control

STRONGER SECURITY and compliance

HAPPIER USERS better experiences

STRATEGIC ROI BENEFITS

Asset Smart Lockers Deliver Long-Term Value and Sustainable Operational Advantage

DRIVE VALUE

Improve efficiency, reduce cost, and maximise ROI.

REDUCE RISK

Strengthen security, compliance, and governance.

ENABLE INSIGHT

Use data to make smarter decisions and plan ahead.

EMPOWER PEOPLE

Deliver a modern, self-service experience employees value.

1

Supports organisational growth without adding administrative overhead.

2

Improves governance and operational control.

3

Strengthens security and compliance with auditable access.

4

Provides utilisation data to optimise procurement decisions.

5

Enhances employee experience through fast, self-service access.

6

Enables data-driven asset lifecycle management.

7

Integrates with ITSM, MDM, HR, ERP and facilities management systems.

8

Standardises asset management processes across locations.

STRATEGIC BENEFITS.
SUSTAINABLE VALUE.

LOWER TOTAL COST
of ownership

IMPROVED EFFICIENCY
across the enterprise

BETTER DECISIONS
with actionable data

STRONGER COMPLIANCE
and audit readiness

FUTURE READY
scalable and adaptable
operations.
