PILOT

6 Month
Proof of Concept

A fully managed smart locker solution delivering secure storage,
a better visitor experience and new recurring revenue.

THE CHALLENGE

The right storage. The wrong approach.

Families and visitors arrive with belongings that they don't want to carry, but traditional storage solutions create friction, add pressure on staff and generate no return.

Visitors need somewhere secure.

People want peace of mind while they enjoy their visit.

Staff shouldn't manage storage.

Manually managing belongings takes time and increases workload.

Storage should create income.

Existing cloakrooms cost money. Smart storage can generate revenue.

No capital budget available.

Upfront investment, maintenance and risk are barriers to action.

vpod

Shared
Gain

Visitors want a better experience.
Operators need a better solution.

Vpod SharedGain delivers secure,
self-service storage that creates value.

A seamless mobile experience.

No app to download.

Everything your visitors need to rent a locker—right from their mobile browser.
